PART V. Read the passage and choose the best answer A, B, C, D.				
Some doctors think that you should drink a glass of water each mor	ming You should drink this			
water first thing, before doing anything else. The temperature of the water	•			
temperature; neither too hot nor too cold. If you drink a glass of water which is too cold, it can cause				
an imbalance to the body and slow down the digestive process. Besides, drinking too hot water can				
bring about some serious side effects such as extensive damage to the tissue and other organs.				
Why should you drink this water? Water helps your body in many w				
kidneys. It prepares your stomach for digestion. Water can also help your i				
drinking water, the intestines can more easily take out nutrients from our f				
to the bathroom more easily.				
Scientists suggest that people take in 1,600 milliliters of water each				
that water in one sitting. If you do, your kidneys will have to work much	harder to eliminate it. It's			
better to drink some in the morning and some in the afternoon. Some people	ple think it's better to drink			
between meals and not during meals. They think water dilutes the juices	produced in our stomachs.			
This can interfere with normal digestion. Are you drinking enough water				
of your urine. If it is light yellow, you are probably drinking enough. If you				
you probably need to drink more water. A little more water each day could	d make you much healthier.
